# About Us

**Cotswold Industries** - a global leader and sustainable source of workwear apparel fabrics. Products include: **100% Polyester, Poly-Cotton and 100% Cotton fabrics.**

A clear focus on making our world a better place for future generations through recycled product innovation and a reduced carbon footprint.

# Cooling Fiber ChillSense™

Fabrics made with ChillSense™ transfer heat from the body to the fabric more quickly, creating a cool sensation to the touch.

## Core Benefits

- Feels cooler in next-to-skin applications.
- Made with REPVE®, the only eco-performance fiber with U TRUST® verification to certify recycled content claims.

ChillSense™

# Durable Anti-Microbial Finish

Saxon Shield is a long-lasting anti-microbial formula **that penetrates each polyester fiber.**

Once applied, it is then cured through a gentle heat process.

This formula then inhibits the growth of germs and is durable through multiple industrial launderings.

# Sustainable / Process Control Certifications

RENAISSANCE

# Corporate Social Responsibility

We take our corporate social responsibilities ("CSR") seriously. Management is committed to advancing policies and systems to ensure that all aspects of CSR are implemented and monitored.

Cotswold uses **RECYCLED** polyester in as many products as possible and uses US Cotton or BCI Cotton where feasible.

Ethical behavior, concern for employee health and safety, care for the environment and community involvement are paramount and the daily focus of management.
