

RENAISSANCE

COTSWOLD
INDUSTRIES INC.

What is USMCA? Why is it different?

- **USMCA is a change in regulation that requires pocketing to originate in member countries only.**
- Beginning in January of 2022, all non-indigo trousers will need to have qualifying pocketing in order maintain duty free import back into the USA.
- Beginning in January of 2023, all indigo trousers will ALSO need to have qualifying pocketing in order maintain duty free import back into the USA.

USMCA
UNITED STATES-MEXICO-CANADA AGREEMENT

Why is
Cotswold the
right partner for
you?

- Competitive USMCA value
- Unparalleled service
- We are “local” with USA and MX qualified production.
- We are fully USMCA qualified

About Us

Cotswold USA - a global leader and sustainable source of trim and sundries for apparel brands for USMCA production.

Products include: **Pocketing, Fusible, Interlinings and Performance Stretch Waistbands.**

A clear focus on making our world a better place for future generations through recycled product innovation and a reduced carbon footprint.

Sustainable / Process Control Certifications

CTPATTM
YOUR SUPPLY CHAIN'S STRONGEST LINK.

RENAISSANCE

Responsible Sourcing

We take responsible sourcing seriously. Management is committed to advancing policies and systems to ensure that all aspects of product manufacturing are tracked and traced. **Cotswold uses only RECYCLED polyester in all our products and only US Cotton or BCI Cotton in production.**

Ethical behavior, concern for employee health and safety, care for the environment and community involvement are paramount and the daily focus of management.

Corporate Social Responsibility

Driven largely by technological innovation, we strive hard to reduce our dependency on finite resources by being more efficient, more thoughtful and flexible enough to make changes for the better through each aspect of our business.

Cotswold takes pride in the people we employ as their talents and skills are our main assets. Our associates are encouraged to part of our sustainable mindset, giving them opportunities to be part of all decision-making processes.

Localized USMCA Delivery

Made sustainably
with CiCLO fibers

**Leading innovative efforts to
reduce the environmental
impact of synthetic microfiber
pollution and unrecycled
textiles.**

CiCLO® fibers, yarns and textiles have been proven effective over the course of several years through reliable scientific data gathered from third party laboratory studies that determine the rate and extent of biodegradation in simulated environments, including sea water, landfill, wastewater treatment plants and soil.

Recycled Product Innovation

Recycled Fiber Sourcing

A clear focus on making our world a better place for future generations through recycled product innovation and a reduced carbon footprint.

Cotswold uses only RECYCLED polyester in all our products.

Ethical behavior, concern for employee health and safety, care for the environment and community involvement are paramount and the daily focus of management.

Durable Anti-Microbial Finish

Lasting 25 Home Washes

Anti-Microbial Fibers

Saxon Shield is a long-lasting anti-microbial formula that is inherent in each pocketing fiber. Once applied, it is then cured through a gentle heat process.

This formula then inhibits the growth of germs and is durable through multiple home launderings.
